Village Shop News Update
Telephone : 01295 760066

Some excellent results for our Shop's performance to report going into the Festive Season; our takings during October were 13% up on the same month in 2011 & year to date, January to the end of October, we are 4.2% ahead of the same period in 2011. This year has been tremendously successful, & yes I know we still have 2 months to go, but thanks must go once again to you our customers, our ever willing band of volunteers & David. We're attending the Market at the Three Conies in Thorpe on Saturday, 1st December to spread the word about what's on offer at our Shop & hopefully sell some produce, flowers & plants as well. Our Shop is becoming the envy of many surrounding villages & long may it continue to be the case!

You should have received your Christmas Order Forms in last month's Newsletter but just in case you've mislaid them, another set is enclosed with this month's as well. There's a really good selection for all across every department so do take a little time to examine the Forms & note the order deadlines to avoid 'disappointment'. We have a fair proportion of our Festive stocks in the Shop now along with all the year round favourites. David was particularly keen for me to tell you that we have purple flowering broccoli is stock again which is selling well along with the Romanesque.

I referred to the fantastic work that Digby Lewis quietly gets on with in selecting & buying very reasonably priced wines for us in last month's Newsletter. Whilst it's a little early to be specific about the wines that will be on sale in December (Christmas is 4 weeks away as I write this), he's kindly penned an article which is also in this issue which I think you'll find very interesting. As we get closer to having our Festive wine selection available, he will arrange for his chatty & informative labels to be attached to the stock; which wine will go best with what food, always useful especially if you're in a bit of a hurry. Thanks for all your work behind the scenes this year Digby.

We held another very positive & well supported Volunteers Meeting at The Star at the beginning of November. These are always fantastically useful sessions to get together for us on the Management Committee to get first hand feedback & suggestions for improving our services still further & we'll be carrying on with these in 2013. Many thanks to our Volunteers for the support, feedback & ideas.

The days are so much shorter now & I for one have noticed how good our newly refurbished notice boards look outside the Shop. Thank again to Nick Grant for giving us his time to carry out this work for us at no charge; we really appreciate it. That's about it then for another year so it just leaves me once again to thank you all for supporting YOUR Shop in 2012. Have a very happy Christmas & a wonderful new year.

WINE IN SULGRAVE VILLAGE SHOP

Unless you are an expert, how do you choose which wine to pick off the shelf when you are faced with the serried ranks of bottles in a supermarket? Do you just go on price or choose the ones on 'special offer'? Take either of these options and you are quite likely to be disappointed. And have you ever asked for advice in Tesco as to which wine would go well with a steak supper? Exactly!

At Sulgrave Village Shop we try to provide a regularly changing selection of wines covering a wide range of styles. To help customers choose what they want, we have written labels for all our wines to provide a brief summary of the style and flavours so you will have a reasonable idea of what you are getting and, hopefully, won't be disappointed.

Unfortunately the duty and tax on wine is very high which means that, at the cheaper end of the range, a relatively small percentage of the cost of a bottle is the price of the wine. So how do we at SVS manage to provide a range of palatable wines at such reasonable prices and still manage to make a small profit for the shop? The explanation is that our trusty buyer has located an outlet for so-called 'remaindered stock'. These wines may be the result of retailers becoming bankrupt and the bailiffs selling off stock at very low prices, the offloading of stock by big retailers who don't have enough bottles to supply all of their stores or the clearance of stock to make way for new lines. The end result is that we have been able to purchase many wines at a very good price and are thus able to sell them cheaper than they cost in the big stores or on line. But we don't buy wines just because they are cheap. Almost all of our wines have been recommended as being particularly good value and a number have won awards in international wine competitions.

The only way we have been able to monitor our marketing abilities is by the amount we sell and it would seem, from recent sales, that we are getting things more or less right. But what we need is FEEDBACK. Please let us know which wines you like and, equally importantly, which ones you don't. Because remaindered stock comes and goes we can't always replace popular lines though we do our best to maintain a wide range and to cover all tastes. But we are always willing to respond to our customers' needs. For example, would anyone be interested in slightly more expensive wines? (Don't forget – the more you pay for a bottle of wine the higher the proportion of the price is actually spent on the wine). If so, how much would you be prepared to pay? Are there any grape varieties of wine styles (dessert wines? Sherry? Port?) that you would like us to stock. Please let us know and we shall do our best to please. Cheers.

‘John the Post’s’ Memorial Bench

Ken & I wanted to say a HUGE thank you to all of the Sulgrave residents for your astonishing generosity; we said last month that we were well on our way to achieving the £500 target to buy a wooden bench with a plaque in John The Post’s memory ... as I write, we have handed over £830 to the Parish Council Clerk.

We have the necessary permission to go ahead with the installation work outside our Shop & more than enough funds to pay for this, the bench & the plaque. Once we know the timings for everything then we’ll give another update; in honesty it’s likely to be early on in 2013 now. We also have to decide on how best to use any funds remaining & if anyone has any suggestions then do please let Ken or myself know.

I know that ‘Young John’ & John’s wife Pat are touched by the generosity of everyone & have asked us to say thank you from their family. It means a great deal to have a fitting tribute to their John, our friend.

GOODBYE TO THE ASH TREES ?

The news that a fungus, *Chalara fraxinea*, which for some years has caused die-back and ultimate death of ash trees in mainland Europe has now spread to this country is causing serious concern. It has been suggested that the spores of the disease are spread on the wind, but it seems more likely that they have been carried on the very many young trees imported annually from continental nurseries. An apparent failure to identify quickly and accurately the exact nature of the problem meant that no restriction on this trade was imposed until very recently. The result is that thousands of newly planted ash trees are now being ripped out and burnt, but it is widely admitted that the disease is out of control.

Isn't it odd to think that we appear to find it necessary - economically at least - to import trees which are native to this country and which grow here in profusion? Each year, I pull dozens of self-sown ash saplings from my garden! We don't learn very quickly from experience, do we? Remember "Dutch" elm disease, brought into Britain on timber imported from America.

How will the death of our ash trees affect our own parish? It is not well wooded, and in most of the small woodlands (largely planted within the last sixty years or so) the ash doesn't form a major constituent. However, in the wider landscape it's a different story. A comprehensive survey of the parish, carried out in 1988-89, proved that almost exactly two-thirds of trees of a height of 20 feet or more in hedgerows or on roadsides were ash. Their disappearance will devastate and denude our landscape.

There's a strong case therefore for planting many more native trees of other and varied species to fill the gaps.
