Shop Operations Manager and Sub Post Office Master/Mistress

(40 hours per week)

c£20,000 + Benefits

Sulgrave Village Shop is community-owned but managed by a salaried manager supported by a group of around 50 volunteers. Despite the tough economic climate we are going from strength to strength and our turnover is significantly up on last year. . . .

Our current Manager is due to retire in November and so we are looking for a replacement. This is a great opportunity for an experienced retailer who wants to work in the heart of their local community. . . .

Successful applicants will have a successful track record in retail operations (ideally management) and will identify with the community shop ethos. They will relish the challenge of running a small Post Office alongside the retail operation and be passionate about customer service. They will also understand the importance of building strong relationships with local suppliers and our volunteers who are from Sulgrave and the surrounding villages.

Although the role is currently full-time we are very happy to consider anyone who would prefer to work on a part-time/job share basis.
